

CASABACCICHETTO

CABERNET SAUVIGNON

A vine that finds in the Piave valley the ideal climate to express its full potential. Cabernet Sauvignon is known for its small, loose clusters and thick-skinned berries, which give the wine structure and colour.

Veneto I.G.T.	Cabernet Sauvignon	Cabernet Sauvignon	12.5% Vol
------------------	-------------------------------	---------------------------	-----------

Ponte di Piave, via Calderba

Harvest with selection of the grapes at full ripeness.

Selection of the pressings. Maceration for over 10 days at a gentle temperature of 22 °C. Followed by partial ageing in wood (tonneaux and barriques).

On the nose it shows the typical hint of spice integrated with notes of ripe red fruit. The delicate body supports a soft, persistent tannin.

A wine best suited to main courses based on red meat, but thanks to its gentleness it also pairs well with cured meats and cheeses.

Recommended serving temperature 18 °C
